

# “Ask the expert” Project Report May-September

Elena Frolova

Russia

# Project description

## **The aim of project:**

- To provide timely informational support for EURACT members, using the great wealth of intellectual and informational potential of EURACT council members, and their knowledge, skills, and links.

## **The first results:**

- 2 requests in June, 1 in July, 2 in September
- “Dear Yvonne,  
First of all I should thank the council for the wonderful Ask the expert initiative”.
- Dear Ruth,
- Thank you for reminding me how powerful the simple can be. With few words you gave me all, the direction, the way and may be the most important for me personally as a not quite experienced trainer, the limits! Yes, learning is a never ending story, but training is not!
- Thank you again for your expertise and for your time. Our communication was a very helpful and a very pleasant experience for me! And also very encouraging to ask again about any other of my endless everyday challenges of teaching!”
