### A Standardised Small Group Teaching Assessment Tool for General Practice

**Were objectives...**
- clear?  
- appropriate?  
- agreed by all?

**Did the group achieve its objectives?**

**Environment**
- Was time used well?
- Was the atmosphere open, trusting, and supportive?

**Group Participation**
- Were all members' skills identified and utilised?
- Was everyone listened to?

**Learning**
- Did the facilitator demonstrate effective decision-making?
- Did the facilitator enhance your understanding and retention?

**Attitudes**
- Did the facilitator explore...
  - pertinent ethical issues?  
  - group member attitudes?  
  - dilemmas?  
  - unresolved issues?

**Facilitator**
- Did the facilitator encourage learner involvement?
- Did the facilitator play an active role?
- Did the facilitator allow others to speak?

**General Practice**
- Was the material...
  - evidence based?  
  - general practice focused?  
  - focused on person centred care?

**Feedback**
- Did the facilitator provide...
  - suggestions for improvement?  
  - regular feedback?  
  - a regular summary of the session?  
  - an evaluation at the end of the session?
