Project report

Elena Frolova

Started in April 2013 in Graz

- ▶ **12 experts participated; 6 requests were registered**
- ▶ **Countries: Albania -2; Greece -3; Bulgaria -1**
- ▶ **Special evaluation form was created and sent to all members who asked questions.**
- ▶ **All members stressed the high value and asked to continue the project**

Evaluation form

- ▶ Are you satisfied with our expert's answers?
- ▶ Was information received useful, new, and applicable?
- ▶ Do you consider this project useful and interesting?
- ▶ Will you recommend keeping on it?
- ▶ Do you have any suggestions to improve this project?

Suggestion from the member

- ▶ **Maybe it would help that more info about the expert of the month is provided in the email sent to announce the new expert with a short bio of the expert**
- ▶ **This experience of sharing information by these experts on their country undergraduate curricula made me aware that we need more information and resource sharing between EURACT members.**
- ▶ **Maybe each month one country shares on a specific project or challenge or problem or solution they currently experience and can wait for ideas, suggestions or sharing of solutions already found and used elsewhere. (Eralda's suggestion)**

My suggestion

- ▶ To involve previous Council members as an experts
- ▶ To try new format – webcast or podcast, to demonstrate EURACT Council members as an experts in clinical fields
- ▶ For this I need assistance of WEB experienced persons
