Report of the Meeting

Wednesday 19 September 2018

Pre-Council Executive Board Meeting

Present – Jo, Mario, Esra, Francesco, Adam, Ruth, Barbara.

Items discussed:

Part 1 (EB members only)

- **Welcome** (Jo)
- **Review agendas**
- **Membership:**
  - update re France: Humbert is to attend as an observer (we will ask Bruce to be his buddy). He is to become a EURACT member at this meeting and then is to stand for elections as the French council representative.
  - updates from other countries: re Spain, some online applications have been made but Dolores has not replied to an email request from Barbara to confirm them. Denise is to be asked to confirm them in Dolores’ absence.
- **New Irish representative:** Brendan (as was Ireland’s rep in the past, no need of buddy)
- **On-line membership application form:** launched and working well (needed an adjustment made by Barbara and the webmaster).
- **EURACT 2nd Medical Education Conference Leuven September 2018**
  - Preparations are well in hand. A meeting with Jan Degryse is due later. Jo described the system for choosing the best oral presentation and poster.
  - **Coordination between Networks** – EUROPREV, EGPRN, EQuIP and EURIPA are inviting representatives from the networks to their meetings and conferences and in some cases waiving the fee: plan to be prepared for EURACT open up its meetings to the networks too. EB proposed that the networks be invited to send a rep to EURACT Council meetings. Regarding visits by EURACT reps to other networks, the EB agreed to discuss the matter with Roar to see if WONCA Europe has any guidance to offer regarding the matter. Re invitation from EGPRN for next month’s meeting, this is to be offered to Council members. EGPRN have also invited EURACT to participate in a project to further develop the EGPRN web-platform for its “International Web-based Course on Research in Primary Health Care” – this is to be discussed with the chairs of the committees.
- **From report of post-Council EB meeting in Thessaloniki:**
  - Guideline to be prepared re criteria necessary to postpone a council meeting: the EB agreed with the plan proposed by Jo.
  - Discuss how to avoid clash between Bled course and EURACT conference: not needed as Bled course and EURACT conference both have had adequate registrations.
  - Assessment course: to be budgeted in January EB meeting.
  - Proposal for sponsorship of appraised doctors to course/conference: Adam suggested that there are 2 separate sponsorship systems, the current one and another for appraised doctors. The EB agreed that this be discussed with Roar.
Check articles if EURACT member/Council member needs to be a GP besides a teacher in GP/FM. The only place where the words ‘general practitioners’ is mentioned in the English version of the articles of association is in article 5.2. However, this is an unofficial English translation of the original Dutch document. To clarify the matter, the EB agreed to ask Nynke to check the original.

Part 2 (EB joined by chairs of committees and task groups to discuss work in such committees / groups)

- **News:**
  - two slots available for non-peer reviewed EURACT workshops in the June 2019 WONCA Europe Conference in Bratislava;
  - advised ST committee of the EGPRN project mentioned above.

- **Committees**
  - **MS:** Bruce/Denise: to discuss and fine-tune selection criteria for sponsorship for courses; prepare for Bratislava meeting; prepare criteria for distribution of surveys.
  - **BME:** Francesco: had workshop in May 2018 WONCA Europe Conference in Krakow, now working on workshop in the Leuven conference.
  - **ST:** Nele: finalised report that was approved and published, with article published in Education for Primary Care; had workshop in Krakow; to prepare 3–year plan.
  - **CPD:** Jachym: had workshops in Krakow; two abstracts accepted for Leuven; to work on new projects re current state of evidence on CPD and how to change and improve practice; to work on 3-year plan.

- **Task Groups**
  - **Appraisal:** Roar: has attempted to integrate appraisal process with the Level 3 course, with a specific slot where participants registered on the system; Ruth also promoted it at last week’s Bled course.
  - **Educational resources:** Martine: worked on Leuven workshop; project being planned for a survey about use of blended teaching material; Martine wishes to be replaced as chair.
  - **Website:** Mario: online individual membership process and video library – done; to do – appointment of new chair, online application form for organisations in collaboration.

   e. Other issues: none.
6. Recent EURACT course – report:
   a. Part 2 of Level 3 Course: Thessaloniki, Greece, 29 - 30 June 2018: report given by Dimitrios. One participant from Macedonia dropped out with giving notice. The remaining 11 participants participated as required, with the tutors satisfied with their work. However Dimitrios pointed out that the budget was very low and needs to be reviewed.
   b. EURACT Bled Course, Slovenia, 11-15 September 2018 ‘Guidelines and Mindlines’: report given by Vesna. It was successful, with 64 participants. Ruth is now one of the course directors. Vesna recommended that the sponsorship procedure be started earlier and improved to ensure that the sponsored participants are committed. This will be discussed by the MSC.

President’s Report - Jo Buchanan September 2018

EURACT was well represented at WONCA Europe’s successful conference in Krakow in June. Bruce and Dimitrios led a workshop promoting the activities of EURACT at the Vasco da Gama pre-conference. During the main conference EURACT participated in several workshops, some of which were delivered in partnership with the other networks.

The paper produced by the Specialty Training Committee titled: Educational Training Requirements for GP/FM specialty training, was presented to WONCA Europe council this was well received and adopted. It has since then been given good coverage through WONCA Europe and WONCA world. Nele Michels and her colleagues led a workshop on this at the conference in Krakow and the attendance for this was excellent. An editorial on this topic has been accepted for ‘Education for Primary Care’. The paper can be accessed here: http://euract.woncaeurope.org/publications

The CME committee collaborated with EURIPA and the Croatian Association of Teachers of Family Medicine to deliver a workshop on CME for Isolated Doctors, which has continued to develop the committee’s thinking on this topic. The BME committee delivered a workshop on the Essential Standards for Undergraduate Training. In addition workshops were delivered in collaboration with EQuiP on Significant Event Analysis and Ensuring the delivery of high quality care in times of high workload such as a pandemic, supported by the PREPARE project.

In June the final part of the Leonardo 3 course was held in Thessaloniki. It was very satisfying to see that all participants had developed interesting and useful work through their participation in the course. This course enables previous participants of the Leonardo programme to develop their leadership skills and their abilities to make real change to the training programmes in their countries.

EURACT had agreed to collaborate with ASPHER and the UN International Organisation for Migration on a bid for EU funding for the provision of training for health care workers in the needs of migrants. This funding has been successful and the first training programmes will occur in the next few months. Thank you to those of you who have found colleagues to participate in this work. The Leuven conference has inevitably been a dominant part of the EB’s work over the past few months. We were delighted with the response to the call for abstracts and to hear from Jan that
there are over 190 participants. Thank you to all council members for promoting the conference in your countries.

Finally we are approaching a time of change for EURACT council. Council elections will be held at the end of the year, so we will be saying goodbye to some members. Mario is coming to the end of his term as Honorary Secretary; his replacement will be selected at the April Council meeting. In addition at the April council meeting, a President-elect will be selected, my term comes to an end in Spring 2020 and I will not be standing again.

I hope you all enjoy the council meeting and conference in Belgium. We offer our sincere thanks to Nele who has made the arrangements in Antwerp and to Jan Degryse and his staff in Leuven who have worked so hard to deliver the conference.
Appendix 2: Report from EURACT representative on WONCA Europe Executive Board

September 2018.

A short report from WONCA Europe EB.

Since our latest Council meeting in Thessaloniki WE EB has had several online meetings – and one physical meeting in Krakow in May in relation to the WE Conference 2018. The Krakow meeting was prior to WE Council meeting in Krakow and primarily dealt with the upcoming Council meeting.

We had a very good Council meeting – especially seen in EURACT light: our ETR document (European Training Requirements for GP Specialty Training) was very well received and approved by WE Council. Congratulations to EURACT and its Specialist Training Committee.

In Krakow another paper – originating from the Nordic Colleges about overdiagnosis was also approved.

We had a very fine conference in Krakow – but around 2000 participants were a bit too few – and hence setting pressure on WE finances. The budget for WE is now very tight.

In Krakow there were very good presentations by WE networks – including EURACT. During the Conference WE EB had meetings with the networks – and WE EB encourage the networks to have a deeper collaboration.

WE EB has carried the ETR document to UEMO and to WONCA World – so it is now widespread.

WE EB has during summer been occupied with the 4 main tasks:

- The upcoming WHO World meeting in Almaty – celebrating the 40 years anniversary of the Alma Ata declaration about Primary Health Care
- The WHO meetings – both in Copenhagen and right now in Rome
- The Work in WE Conference Committee with the intent of engaging with a core professional conference organiser (PCO)
- The upcoming WW Council Meeting and Conference in Seoul in October this year – and especially the potential outcome of election of WW President Elect, where WE President Anna Stavdal is a candidate. What will the consequences for WE be?

Next formal WE EB meeting will be in December in Ljubljana.

Roar Maagaard, WE EB member as representative from EURACT.

Basic Medical Education (BME) Committee
Francesco Carelli, Chair

Present: Helena, Mira, Mario, Ilse, Anne, Natalia, Francesco
Absent: Milena, Valentina

The work in Committee was very fruitful and conclusive. We discussed how to frame at the best the WS at Leuven Conference, starting from the WONCA Document “Urgent case of Family Medicine in Europe”. We distributed each one’s tasks in sequence or as in contemporaneity.

It is possible here to say that the WS was more successful we were expecting also with so large subscriptions for participation that we had to close at number 30.

Also, we are in good way for a statement for good standards in undergraduate teaching.

Going to miss at least 2 members next year.

Appraisal of GP teachers task group
Roar Maagaard, Chair

Participants: Vesna, Llukan, Ruth, Adam, Jo, Roar (chair).

The activity on the appraisal site has been disappointing limited since our Council Meeting in Thessaloniki – apart from 2 events:
- just before our Antwerp meeting a new Expert application was submitted – and a new Expert teacher is now soon to be appraised, I hope
- all participants of the Leonardo III, part 2 course have started registration in the portfolio.

The task force feel that the appraisal system should be revitalised – and after reconsidering the rather strict conditions we thought it was time to change these and we were sure it would not hamper the quality of the appraisees.

We recommended these immediate steps, that later were approved by Council:

- Incorporate appraisal to the programme of Leonardo EURACT level 1 & 3 courses
- Move appraisal presentation at level 3 from the second to the first part
- Completion of the appraisal at expert level should be „obligatory” part of the course
- Make special (softer) requirements for the level 3 course participants/graduates
- Make softer requirements for all appraisees at the competent level

Please see specific changes in the slides below:

In order to make this happen we must:

• Have formal approval of the Council – we have got it!
• Change to the website (on line tool) – in action
• Adjustment of the courses’ materials – will be done
• Advertise changes – will be done when website is updated
• Update PowerPoint promotional presentations – will be done
• Update on-line handbooks – will be done
• Some costs (?) will be related – must be calculated and accepted by EURACT EB

Our decisions on change of the appraisal system must be communicated by Council members to EURACT members and educational colleagues across Europe – and in the next issue of EURACT Messenger.

The participants had further discussion on the aims and goals of the Task Force, and about what the end products should be. All present members were very active and committed to the success of the Task Force. Martine had previously announced that she
felt the Task Force needed to develop new objectives and had asked for a new chairman to replace her.

**Introduction and aims (as previous)**

Purely "on line" educational resources may not be adequate to teach some non-clinical material relevant to Family Medicine, such as the topics dealing with the principles and philosophy of Family Medicine. Blended methods including the use of small groups’ debates, interactions and interpersonal activities, are more suitable to improve communication skills, the management of cultural and ethical issues as well as dealing with uncertainty. It was agreed that the Task Force should provide some outlines and educational resources that could serve as a basis to teachers willing to develop modules using blended methods.

**Current Tasks**

1. **Roadmap for blended learning material preparation:** further discussion of the format and illustration of this overview, relevant to the goals and context of Family Medicine. This is to become our main document, to be uploaded on EURACT website and maybe published. Draft to be submitted at next Council meeting.

2. **Final revision of workshop for Leuven Conference:** “Blended learning material in family medicine education - now!” Timing and tasks repartition between participants was discussed and finalized. All present members took an active role at workshop delivery (later in Leuven, the workshop proved to be very successful with about 40 participants).

3. **Development of Minimum Core Curriculum Topics:**
It was decided not to develop any additional model or topic and to finalize the format of the following four topics to fit in the publication of the roadmap.

- Topic 1: Continuity, comprehensiveness, coordination of care
- Topic 6: Decision-making based on prevalence and incidence of target
- Topic 5: Management of multiple health problems, identifying priorities

4. **Survey of existing (non-clinical) blended courses/modules relevant to Family Medicine, in EURACT countries**
The group has started developing a questionnaire for a survey to be addressed to all EURACT Members. The purpose of the survey is to collect information on what, how and how much are blended teaching methods in use in teaching Family Medicine in Europe. First, the questionnaire will be submitted to EURACT EB for approval. Then the pilot part of the survey will be conducted on Council members. After validation, the survey will be sent to all EURACT members and the results analyzed. Draft to be submitted at next Council meeting.

Development of a **bank of relevant content material and resources** about blended learning, hybrid courses, flipped classrooms, interactive E-learning and technologies (under progress).
Future tasks:
There was no candidate for replacing the leadership of the Task Force, even when offered to all Council members at large.
In view of the uncertain future of the Task Force it was decided to bring the present tasks (road map, survey and bank of resources) to near final format until next Council meeting and not to undertake any new one.
The Task Force will decide on its continuation at next Council meeting and Martine will step down from being the chairman.
